

PRESS RELEASE

Luminox Automatic Field Sport Timer 0920 Series

Singapore, October 2020 - With the new Luminox Automatic Field Sport Timer, Luminox pays homage to a heritage timepiece from the brand while updating it with a modern feel. The Luminox Sport Timer 1540 was first introduced in the 1990s and was one of the most important watches for the fledgling brand.

For Luminox's 30th anniversary last year, Luminox introduced the Luminox Sport Timer 30th Anniversary to celebrate the joyous occasion. The timepiece utilises a vintage-inspired design paired with today's latest technology. This year, Luminox takes the Sport Timer even further, incorporating an automatic movement into the sporty vintage design.

The Luminox Automatic Field Sport Timer 0920 Series is water resistant to 200m and features a sapphire crystal, a 42mm stainless steel case with a stainless steel and ceramic inlay turning bezel, and a screw-down crown and screwed-in case back. Available on a stainless-steel bracelet or a leather band, this timepiece is designed to be rugged and versatile, and can go from the ocean to the office, and everywhere in between.

Of course, the Luminox Automatic Field Sport Timer also features a generous amount of Luminox Light Technology, which remains visible in any condition for up to 25 years, and comes in two variations - black and

blue dial. A particularly useful detail is the day and date display at three o'clock. To show off the automatic movement, it also has an exhibition case back, with a blacked-out rotor adorned with the Luminox logo.

Luminox continues to celebrate its long heritage by reintroducing one of the brand's most important watches, in an automatic version. The Luminox Automatic Field Sport Timer heralds all that the brand stands for - toughness, versatility, performance -- in a very attractive, vintage-inspired package.

About Luminox

Luminox, the original self-powered luminous watch brand, is the watch of choice for global outdoor adventure icon Bear Grylls, U.S. Navy SEALs, The Icelandic Association for Search and Rescue (ICE-SAR), Lockheed Martin's F-117 Nighthawk™ stealth and other jet fighter pilots, elite forces worldwide and professional divers. Luminox watches glow up to 25 years in any light condition. Always Visible, tough, powerful and accurate, Swiss-Made Luminox is the ultimate night vision gear for rugged outdoorsmen and other peak performers.

ALWAYS VISIBLE

Navy SEALs, law enforcement, emergency personnel and more wear Luminox watches, and these professionals need to be able to see the time no matter the conditions. That's why Luminox uses tiny tritium gas tubes, which will provide illumination for up to 25 years. Unlike other luminosity systems, which depend on exterior light sources to charge luminous paint or a pushbutton to illuminate the watch, the luminosity is built right into Luminox watches, ensuring that you will always be able to see the time, no matter the conditions.

AVAILABILITY

Luminox watches are available at Crystal Time Pavilion at VivoCity #01-K30, leading department stores (TANGS at Tang Plaza, Robinsons The Heeren, OG Orchard Point) and authorised watch retailers.

Crystal Time is the official watch distributor for Luminox.

For further information and the list of authorised retailers, please call Crystal Time (S) Pte Ltd at +65 6747 8888 or visit the website at www.luminox.com.sg
